

Sri Ram Teja Pinnamireddy

Kakinada, Andhra Pradesh, India

pinnamireddysriramteja@gmail.com — LinkedIn — Portfolio

Experience

Infosys Springboard

Aug 2025 – Oct 2025

Python Developer Intern

Remote

- Developed an AI-powered banking chatbot using Python, Flask, and SQLite for automated FAQ support.
- Implemented ML-based text classification and Named Entity Recognition (NER) for intent and entity extraction.
- Designed RESTful APIs and integrated SQLite while applying modular and object-oriented design principles.

APSCHE – The SmartBridge

Dec 2025 – Feb 2026

AI & Machine Learning Intern

Remote

- Designed and developed an end-to-end machine learning solution to predict startup success.
- Performed data preprocessing, EDA, feature engineering, and removed data leakage for better generalization.
- Trained a Random Forest model achieving 80% accuracy and deployed it using Flask with a web interface.

Projects

BankBot – AI Chatbot for Banking FAQs

Aug 2025 – Oct 2025

Python, Flask, NLP, SQLite

[Live]

- Built a Flask-based chatbot backend with SQLite, implementing text classification and NER for query understanding.
- Integrated ML predictions with REST APIs to deliver end-to-end automated chatbot interactions.

Startup Success Prediction using Machine Learning

Dec 2025 – Feb 2026

Python, Pandas, NumPy, Scikit-learn, Random Forest, Flask

[Live]

- Developed an end-to-end ML pipeline using Random Forest to predict startup success from historical data.
- Performed preprocessing, EDA, and deployed the model using Flask for real-time predictions.

SRT CineLite – Movie Search Platform

React.js, REST APIs

[Live]

- Developed a movie search platform using external REST APIs with real-time data fetching.
- Implemented dynamic UI rendering and deployed the application on GitHub Pages.

Technical Skills

Programming Languages: Python, C, JavaScript

Web Technologies: HTML, CSS, React.js, Bootstrap

Frameworks & Tools: Flask, Git, GitHub, REST APIs

Core CS: Data Structures, Algorithms, OOP, Problem Solving

Core Areas: Full Stack Development, Chatbot Development, Web Deployment

Education

Pydah College of Engineering, Kakinada

2022 – 2026

Bachelor of Technology in Computer Science

CGPA: 7.48

Sri Chaitanya Junior College

2020 – 2022

Intermediate (MPC)

Certifications

- Internship 6.0 (Python Developer) – Infosys Springboard
- Machine Learning with Python – IBM
- AI Associate – Salesforce
- AWS Academy Cloud Foundations
